Takeda USA.

The **GOOD**
news in
vitamins.

There is growing recognition, by both the public and the scientific community, of the benefits of vitamins in health maintenance and in disease prevention and treatment.

This is good news for both consumers and our industry.

Good news that Takeda, a national leader in vitamin supply for three decades, will continue to spread by providing our customers with only the finest quality products. Our recent ISO 9000 certificate confirms our commitment to total quality in every area of our business and assures our customers that their most demanding requirements will be met, now and in the future.

A future that looks bright indeed.
